2013 CLASSES FORMING NOW!

www.hcprobootcamps.com
“I went into this course feeling overwhelmed. Shannon made me feel I could conquer anything ICD-10 had out there.”

—Shawna Laffitte, HIR Manager
Sheridan Memorial Hospital, Sheridan, WY
FAQs

Are continuing education credits provided?
Visit us at www.hcprobootcamps.com for complete information about continuing education credits available for the boot camp you are interested in. HCPro Boot Camps offer continuing education credits for a variety of healthcare disciplines.

Who should attend an HCPro coding Boot Camp?
- Coders
- Billing specialists
- Medical records/health information managers/staff
- Case managers
- Clinical documentation improvement specialists
- Clinical managers and department heads
- Practice managers/business office staff
- Physicians, NPs, PAs, and other clinicians
- Compliance officers and auditors
- Finance/reimbursement managers
- Healthcare consultants, CPAs, and lawyers
- Health plan financial analysts, claims processing, and provider relations professionals
- Medicare intermediary personnel
- Patient access/admitting staff
- ICD-10 implementation team members

What about making hotel arrangements for classroom training?
Detailed information about the hotel accommodations for each boot camp is available at www.hcprobootcamps.com.

Special room rates are available for HCPro Boot Camp attendees—book early! We have negotiated a special rate for a limited number of rooms at each course location. Rooms are available on a first-come, first-served basis and may sell out before the cutoff date. Make your hotel reservations immediately to guarantee the hotel rate and availability, and be sure to identify yourself as a participant of an HCPro Boot Camp.
Certified Coder Boot Camp® uses a combination of lecture, class discussion, and coding exercises to provide the skills and confidence you need for all medical and surgical specialties. New or veteran coders as well as other professionals will build a solid foundation in coding principles and proper coding manual usage through this intensive five-day course.

Get certified and take your career to the next level:
• This course provides all the preparation you need for the American Academy of Professional Coders’ (AAPC) CPC® exam
• Master the skills that will make your job easier
• Get a solid foundation in coding principles and proper coding manual usage, along with the skills you need to tackle any coding challenge.

Course Outline

The course outline is as follows:

**Module 1:** Introduction and Coding Fundamentals

**Module 2:** Diagnosis Coding (ICD-9-CM)

**Module 3:** Introduction to CPT: Evaluation and Management Services

**Module 4:** Coding Anesthesia Services

**Module 5:** Introduction to Surgery Coding: Coding Integumentary Procedures

**Module 6:** Coding Musculoskeletal Procedures

**Module 7:** Coding Respiratory Procedures

**Module 8:** Coding Cardiovascular Procedures

**Module 9:** Coding Digestive System Procedures

**Module 10:** Coding Urinary/Genital System, Obstetrics, and Endocrine Procedures

**Module 11:** Coding Nervous System Procedures

**Module 12:** Coding Eye, Ocular, and Auditory Procedures

**Module 13:** Coding Radiology Services

**Module 14:** Coding Pathology and Laboratory Services

**Module 15:** Coding Medicine Services

**Module 16:** HCPCS II Coding

Course content is subject to change based on new coding guidelines and course enhancements.
**Price Per Person:** $1,599

Certified Coder Boot Camp® — Inpatient Version is an intensive coding education course on hospital inpatient facility services coding and DRG assignment. The course not only explains the basic classification of DRGs, but requires attendees to use Ingenix’s DRG Expert to manually assign the DRG for all case studies. Although this course does not provide sole preparation for a national certification exam, it covers the inpatient medical coding competencies tested on the American Health Information Management Association (AHIMA) Certified Coding Specialists (CCS) Exam.

This course will teach you to:
• Master inpatient coding guidelines
• Abstract actual medical records
• Assign correct ICD-9-CM codes and MS-DRGs
• Enhance physician query skills

The course outline is as follows:

**Module 1:** Introduction to Inpatient Hospital Facility Coding

**Module 2:** Using the ICD-9-CM Manual Effectively

**Module 3:** Fundamental Diagnosis Coding Guidelines for Inpatient Hospital Reporting

**Module 4:** Fundamental Procedure Coding Guidelines for Inpatient Hospital Reporting

**Module 5:** MS-DRG Assignment

**Module 6:** V Codes and E Codes

**Module 7:** Present on Admission Indicators/Physician Queries

**Module 8:** Infectious and Parasitic Diseases

**Module 9:** Neoplasms

**Module 10:** Endocrine, Metabolic, and Nutritional Disorders

**Module 11:** Diseases of the Blood and Blood-Forming Organs

**Module 12:** Mental Disorders

**Module 13:** Diseases of the Nervous System and Sensory Organs

**Module 14:** Diseases of the Circulatory System

**Module 15:** Diseases of the Respiratory System

**Module 16:** Diseases of the Digestive System

**Module 17:** Complications of Pregnancy, Childbirth, and the Puerperium

**Module 18:** Diseases of the Musculoskeletal System

**Module 19:** Congenital Anomalies/Perinatal Conditions

**Module 20:** Injuries and Burns

**Module 21:** Adverse Effects and Poisonings

**Module 22:** Practice CCS Exam (Inpatient Portion Only)

Course content is subject to change based on new coding guidelines and course enhancements.

“I would highly recommend this class to anyone interested in inpatient coding!”

—Lesley Battles, CPC
North Central Surgical Center, Dallas, TX

**Need to Train a Group?**
Bring an **HCPPro Boot Camp** to your organization and save time and money. Eliminate travel costs and enjoy a group discount while ensuring your staff is up to date on the latest regulations and guidelines. Course content and length can be customized to meet your needs.
The biggest change to the coding industry is just around the corner. It’s time to start training your team now.

Certified Coder Boot Camp®—ICD-10-CM & ICD-10-PCS teaches coding professionals all they need to know to prepare for the transition to ICD-10. This comprehensive course is updated to reflect the most current information, and offers the valuable CEs you need to maintain your credentials or to prepare to sit for an upcoming proficiency exam.

Coding is an active role so in order to master ICD-10 you will not be a bystander but will learn by completing numerous hands-on exercises.

- Modules 1-4 are devoted to ICD-10-CM. These modules explore the aspects of diagnosis coding for all types of hospital services both outpatient and inpatient. We’ll review the Official Guidelines for guidance on code assignment and sequencing.
- Modules 5-8 are dedicated to topics related solely to hospital inpatient services such an in depth exploration of ICD-10-PCS, affects on MS-DRGs in ICD-10 and abstraction with code assignment off operative reports and complete inpatient case studies.

Need to Train a Group?

Bring an HCPro Boot Camp to your organization and save time and money. Eliminate travel costs and enjoy a group discount while ensuring your staff is up to date on the latest regulations and guidelines. Course content and length can be customized to meet your needs.
COURSE OUTLINE

The course outline is as follows:

**Module 1:** Introduction to ICD-10-CM

**Module 2:** ICD-10-CM Conventions

**Module 3:** Official Guidelines for Coding and Reporting—Section IV Diagnostic Coding and Reporting for Outpatient Services

**Module 4:** ICD-10-CM Chapter-Specific Coding (A00–Z99)

**Module 5:** Official Guidelines for Coding and Reporting—Section II–III Diagnostic Coding and Reporting for Inpatient Services/MS-DRG Assignment

**Module 6:** Introduction to ICD-10-PCS

**Module 7:** ICD-10-PCS Coding Guidelines; Abstraction of operative notes for ICD-10-CM diagnosis and ICD-10-PCS procedures

Course content is subject to change based on new coding guidelines and course enhancements.

CERTIFIED CODER BOOT CAMP®
ICD-10-CM ONLY: PHYSICIAN SERVICES VERSION (LIVE OR ONLINE)

ICD-10 is almost here. Prepare your team today.

Certified Coder Boot Camp®—ICD-10-CM Only: Physician Services Version teaches coding professionals to be proficient in ICD-10 coding. This comprehensive course is updated to reflect the most current information, and offers the valuable CEs you need to maintain your credentials or to prepare to sit for an upcoming proficiency exam. This intensive course will help coding professionals achieve mastery of ICD-10-CM diagnosis coding with a focus on hands-on exercises.

“Amazing instructor. Would definitely recommend the course to others.”

—Andrea Bacon
Associate Analyst, Blue Cross Blue Shield of TN, Hixson, TN

Students registering for HCPRO's ICD-10 Beyond the Basics Boot Camp may choose the three-day agenda (both ICD-10-CM and ICD-10-PCS) or the one-and-a-half-day agenda (ICD-10-CM only).

ICD-10 Beyond the Basics Boot Camp™ provides instruction in the fundamentals of ICD-10 coding and is taught in a comparative format with ICD-9. You will learn the differences between ICD-9 and ICD-10 codes, understand major changes to official coding guidelines, and develop the confidence to tackle the new system. The course will focus on the most important aspects of ICD-10. Our expert faculty will review the codes and provide practical examples for hands-on learning.

After taking the course, you will be able to:

- Identify the chapter-specific differences between ICD-9-CM and ICD-10-CM
- Apply new conventions in the ICD-10-CM coding guidelines
- Explain the new structure for procedure coding for inpatient services
- Assign codes using the ICD-10-CM coding classification system
- Categorize procedures by root operation
- Master the use of ICD-10-PCS tables
- Identify the benefits of transitioning to ICD-10

“Very good class. Good information, well organized. Much needed in this upcoming environment. Thanks!”

—Mary Guild
Nurse Analyst, State of Michigan, Lansing, MI

Shannon E. McCall
RHIA, CCS, CCS-P, CPC, CPC-I, CEMC, CCDS

McCall is the director of HIM and coding for HCPro, Inc. She oversees all of the Certified Coder Boot Camp programs. Shannon developed the Certified Coder Boot Camp®—Inpatient Version, the Evaluation and Management Boot Camp, the HCPro ICD-10 Beyond the Basics program as well as the Certified Coder Boot Camp-ICD-10 versions. As a lead regulatory specialist for HCPro’s Revenue Cycle Institute, McCall works with hospitals, medical practices, and other healthcare providers on a wide range of coding-related custom education sessions.

Jennifer Avery
CCS, CPC-I, CPC-H

Avery is an instructor for the Certified Coder Boot Camp® live and online versions, the Certified Coder Boot Camp®—Inpatient Version, and the Certified Coder Boot Camp®—ICD-10 Version. Avery is a regulatory specialist for HCPro’s Revenue Cycle Institute, where she utilizes her extensive experience in both inpatient and outpatient coding by developing custom training and education sessions.

Peggy Blue
MPH, CPC, CCS-P

Blue is an instructor for the Certified Coder Boot Camp® and the Certified Coder Boot Camp® Online. Prior to joining HCPro, she oversaw the development, implementation, dissemination, and reporting of information related to Medicare professional services training efforts for Highmark Medicare Services.

Lisa Rae Roper
MHA, CPC, CCS-P

Roper is an adjunct instructor with HCPro, Inc. and teaches the Certified Coder Boot Camp®. She has 25 years of experience in business management, training, coding and healthcare consulting. She operates an independent consulting firm where she focuses on projects in business, management and training with universities, state and local health departments, specialty physician offices, hospital outpatient facilities, and surgical centers.

Diana H. Williams
BS, CPC, CCS-P, CCP, CPMA

Williams is an instructor for the Certified Coder Boot Camp®—ICD-10-CM and ICD-10-PCS, both live and online, and teaches the HCPro ICD-10 Basics Boot Camp®. She has more than 23 years experience in coding education, medical insurance, and provider management, including coding general surgery, radiology, evaluation and management, transplants, occupational medicine, family practice, pediatric general surgery, and pediatric urology.
