

Partner with HCPro to offer Coding and Reimbursement Boot Camp Training to your Members

As the leader of a state or regional HIMA chapter, we'd like to offer the opportunity to bring an HCPro Boot Camp to your chapter. Over the last three years, we've worked closely with chapter leaders and successfully arranged to bring our highly-regarded, award-winning Boot Camps to local chapters as exclusive 'members-only' benefits.

Some of the leading boot camps offered by HCPro include:

- **Certified Coder Boot Camp**
- **Certified Coder Boot Camp—Inpatient Version**
- **Medicare Boot Camp—Hospital Version**
- **Clinical Documentation Improvement Boot Camp**
- **Evaluation & Management Boot Camp—Professional Services Version**

HCPro chapter partnerships

HCPro teaches dozens of Medicare and coding boot at hotels throughout the country each year that students from local hospitals and payers attend. For example, HCPro partners with... regional HIMA chapters to host Medicare Boot Camps exclusively for their membership—at their chosen locations, during their preferred dates. Participation is discounted for members and they receive the benefit of attending programs in their areas without the burden of travel and lodging costs.

HCPro recruitment assistance

HCPro provides recruitment and marketing assistance to help chapters spread the word. As part of this partnership, our design team will create branded PDF collateral announcing the dates, locations, and HIMA registration contact information. HCPro will also list the dates and locations on its web-site.

In addition, to help bolster attendance and recover investment, HCPro can distribute invitations on the chapter's behalf to its own regional contacts. Chapters are provided these marketing services and materials for no additional fees.

Getting started is easy

HCPro requires a deposit to secure the class and the balance to be paid in full following the program. The state chapter can determine on its own what fees to recover from each attendee.

About HCPro Boot Camps

HCPro Boot Camps are intensive three- to five-day structured training programs that teach the fundamentals of coding, Medicare coverage, billing, and payment for hospital outpatient and inpatient services.

They provide students with an increased understanding of the operation of the Medicare program and the ability find the answers to their most pressing Medicare questions.

Boot Camps are taught by some of the most highly-regarded coding and Medicare authorities. Thousands of students from provider organizations, payers, and CMS, have passed through our programs.

For more about all of our Boot Camps, including learning objectives and sample outlines, go to www.hcprobootcamps.com.

Take the next step

Let us tell you more! We'd be happy to arrange a call with one of our HCPro Boot Camp instructors to answer specific questions about our content and to talk more about the logistics of bringing a Boot Camp to your organization. We have references from hospitals and professional organizations who are happy to share their partnership experiences.

Call 877/233-8828 or email info@hcpro.com for more information.
