

Partner with HCPPro Boot Camps to offer leading Medicare Training to your HFMA membership

We'd like to offer you the opportunity to bring a Medicare Boot Camp to your HFMA chapter. Over the last three years, we've worked closely with chapter leaders to bring our highly-regarded, award-winning Boot Camps to local chapters as exclusive 'members-only' benefits.

HCPPro/chapter partnerships

HCPPro teaches dozens of Medicare Boot Camps at hotels throughout the country each year that draws students from local hospitals and payers alike.

HCPPro partners with regional HFMA chapters to host Medicare Boot Camps exclusively for their membership—at their chosen locations, during their preferred dates. Participation is discounted for members and they receive the benefit of attending programs in their areas without the burden of travel and lodging costs.

HCPPro recruitment assistance

HCPPro provides recruitment and marketing assistance to help chapters spread the word. As part of this partnership, our design team will create branded PDF collateral announcing the dates, locations, and HFMA registration contact information.

HCPPro will also list the dates and locations on its web-site. In addition, to help bolster attendance and recover investment, HCPPro can distribute invitations to our regional contacts on the chapter's behalf regional contacts. Chapters receive these marketing services and materials for no additional fees.

Getting started is easy

HCPPro requires a deposit to secure the class and the balance to be paid in full following the program. The state chapter can determine on its own what fees to recover from each attendee.

About HCPPro Boot Camps

HCPPro Boot Camps are intensive three-to five-day structured training programs that teach the fundamentals of coding, Medicare coverage, billing, and payment .

These in-depth training sessions provide students with an increased understanding of the operation of the Medicare program and the ability find the answers to their most pressing Medicare questions.

Medicare Boot Camp—Hospital version
Medicare Boot Camp—Critical Access Hospital version
Medicare Boot Camp—Physician Services version

Boot Camps are taught by some of the most highly-regarded coding and Medicare authorities. Thousands of students from provider organizations, payers, and CMS, have passed through our programs.

For more about all of our Boot Camps, including learning objectives and sample outlines, go to www.hcprobootcamps.com.

Take the next step

Let us tell you more! We'd be happy to arrange a call with one of our HCPPro Boot Camp instructors to answer specific questions about our content and to talk more about the logistics of bringing a Boot Camp to your organization. We have references from hospitals and professional organizations who are happy to share their partnership experiences.

Call 877/233-8828 or email info@hcpro.com for more information.
